PETITION

To the Honourable the Members of the House of Assembly in Parliament assembled –

The Petition of the undersigned residents of South Australia.

Argument

We draw the attention of your Honourable House to the concerns of local residents regarding the proposed pumping station to be built by SA Water at a site in Vale Park.

We the undersigned are concerned about the sheer size of this structure as well as its location in a largely residential area. The project will negatively impact the environmental amenity of the area, housing prices in surrounding streets and significant trees and fauna that rely on this environment. Residents are also concerned about the impact that the construction and continued operation of this project will have on traffic, security and noise.

Request

Your petitioners therefore request the House to recognise the concerns of local residents and urge the Government to reconsider this proposed project in its current location.
